

## **INSTRUCTIONS FOR COMPLETION OF FINANCIAL INVENTORY**

### **I. Financial Inventory Purpose**

The Financial Inventory (Form R-406) is used to gather pertinent job candidate financial data and to determine an expected level of job candidate financial participation for non-fee schedule services, based on economic need. The Financial Inventory includes information as to the annualized income data, as well as other financial or in-kind resources, which the job candidate may apply toward the cost(s) of service(s).

The R-406 is not used when providing any non-fee schedule service for recipients of SSDI or SSI or when providing CRP, reader, interpreter, or personal assistance services to any job candidate.

An exception approved by management is required whenever excluding the job candidate's contribution.

### **II. Financial Inventory Form:**

**Job Candidate Name:** Enter the job candidate's name.

A. Income Data: The income data is intended to reflect the current income of the family. It is important to include gross wages as opposed to "take home pay". In the case of farm or business income, the figure is intended to reflect net income. In instances of farming or business income it will be necessary to estimate net income. That estimate will be based upon the previous year's record of income.

Family income is defined as those who are responsible for the support of the job candidate. This may involve individuals who live in the same household or live in separate households.

Frequently the income data will be provided on the basis of dollars per month or per year. When monthly amounts are provided, the information is to be multiplied by the appropriate figure in order to show it as an annual income. It is important to be as accurate as possible in assessing the current income of the job candidate and to annualize that income for the ensuing twelve-month period. If a job candidate had previously not had a substantial income to apply toward their rehabilitation plan, and then obtained a job, the new income may be considered for an exception since the job candidate may not be able to afford the "back to work" expenses.

April, 2014

Signature: Have the job candidate sign and date. Parent or guardian if job candidate is a minor.

Is this job candidate currently eligible for SSDI and/or SSI? – If Yes is marked, discontinue form completion. A financial needs assessment is not needed.

B. To Be Completed By Agency Representative:

1. Add all annualized entries in item A. and put total here.
2. Enter the number of family members up to 8.
3. Enter the dollar amount established by the agency as the **Income Exclusion for up to 8 family members**. See Chart A.
4. Enter the number of family members beyond 8.
5. Multiply the number of additional family members in #4 by the dollar amount for each additional member (Chart A).
6. Add lines 3 and 5 for the total exclusion.
7. Subtract line B.6. from line B.1. - Enter the number, but not less than zero. This is the **Applicable Income and Yearly Maximum**.
8. Enter the percent (%) from the Chart B which corresponds to the Applicable Income figure determined in B.3. This is the percent of each item that the job candidate is responsible for, up to the Yearly Maximum.

Chart A

| Exclusion Amounts: |                        |
|--------------------|------------------------|
| <u>Family</u>      | <u>Amount Excluded</u> |
| 1                  | 20,108                 |
| 2                  | 27,143                 |
| 3                  | 34,178                 |
| 4                  | 41,123                 |
| 5                  | 48,248                 |
| 6                  | 55,283                 |
| 7                  | 62,318                 |
| 8                  | 69,353                 |
| Each additional    | 6,000                  |

A fillable form is also available on the IVRS Intranet.
